Natural YARD CARE

JARDINERÍA Orgánica

FALL 2016

FREE CLASSES! ¡CLASE GRATIS!

EASY AND FREE SEED SAVING

TUESDAY
AUGUST 23
3:00–4:30 p.m.

AT THE FARMERS MARKET!

Natural yard care practices help plants thrive and make seeds that can be saved for planting next year. Join Garden Educator and Author Lisa Taylor for a hands on exploration of seed saving for Pacific Northwest gardens. Discover what seeds are best for saving, practice gleaning, and plus, fill a packet with seeds to take home. Saving seeds is easy, free and fun for all ages!

Renton Farmers Market
233 Burnett Avenue S, Renton

RAIN GARDEN, CISTERN AND GREYWATER BASICS

WEDNESDAY
SEPTEMBER 7
6:30–8:30 p.m.

BETTER MANAGE RAINWATER

Don't let our seasonal rains overwhelm your garden or basement. Learn how you can manage rainwater more effectively and sustainably through rain gardens, swales, french drains, cisterns and other methods. Owner of Stone Soup Gardens Jake Harris will discuss the sources and impacts of stormwater runoff, as well as how to minimize its impact and maximize its benefit.

Renton Highlands Library
2801 NE 10th Street, Renton

MIGHTY ARTHROPODS FOR KIDS

SATURDAY
SEPTEMBER 17
10:30 a.m.–12:30 p.m.

KIDS CLASS

Fascinating bugs can be found in all gardens and backyard environments. Learn what characteristics arthropods share. Explore how spiders, pillbugs, centipedes, ladybugs and aphids live and grow. Afterwards, head to the gym for fun activities!

For ages 6-10. *Registration is required, space is limited. Parents are encouraged to attend the Edibles in the Landscape class (right) taking place at the same time and location. Learn how to maximize your space to help your edibles grow.*

Highlands Neighborhood Center
800 Edmonds Avenue NE, Renton

EDIBLES IN THE LANDSCAPE

SATURDAY
SEPTEMBER 17
10:45 a.m.–12:30 p.m.

MAXIMIZE YOUR SPACE

Is your garden shaded by buildings or mature trees? Not sure whether your space is suitable for edibles? The Garden Hotline's Educator Laura Matter will share ideas for integrating edible plants into your landscape. Topics include proper site assessment, plant placement and plant care to help your edibles thrive.

If you have children ages 6-10*, register your kids for the Mighty Arthropods class (left) taking place at the same time and location. Kids can learn about arthropods, with fun activities at the gym to follow!*

Highlands Neighborhood Center
800 Edmonds Avenue NE, Renton

TÉCNICAS Y BENEFICIOS DE LA JARDINERÍA ORGÁNICA

JUEVES 29 DE SEPTIEMBRE, 4:00–6:30 p.m.

Clase dirigida a jardineros de todo nivel interesados en aprender técnicas saludables, seguras y orgánicas para el cuidado del jardín. Aprenderán lo que pueden mejorar para ser un mejor jardinero, trabajando con las plantas que ya existen en su jardín, creando así un lugar espectacular. Victor Ceron de Organic Gardening Care nos mostrará técnicas para la limpieza del jardín, cómo escoger plantas, mantener un césped saludable, y podar árboles y arbustos. Además, se hablará de los beneficios físicos y mentales de la jardinería en el mejoramiento de nuestra salud en general.

Renton Highlands Library, 2801 NE 10th Street, Renton

Información de la clase también está disponible en **rentonwa.gov/nyc**
