

Direct Debit Application

About Direct Debit

This method of payment automatically pays your utility bill by electronically transferring funds from your checking or savings account and applying the payment directly to your utility account. After signing up for this payment option, you will still receive a utility bill but the payment for your utility bill will automatically be deducted from your bank account on the due date listed on your bill. This payment options eliminates postage, check costs and late fees. Because the owner is the main account holder and the bank only sees the owner's name, a tenant may not sign up for this service.
