

Find Your Future with the City of Renton – The Center of Opportunity
Join us at the Washington State Public Service Career Fair

By Mike Webby, Human Resources and Risk Management Administrator

We have all heard the saying that the most valuable resource in an organization is the human resource. Human capital is a key driver of organizational success. Investing in people is no longer a leap of faith—it is a sound investment strategy that produces measurable results. In Renton, we understand this value and take pride in our employees.

We invite you to explore the possibilities that a career in public service can offer. The City of Renton will have a booth at the Washington State Public Service Career Fair on Monday, October 29 from 10 a.m. to 4 p.m. at the Seattle Center's Northwest Rooms. Representatives from the city will be on hand to answer questions regarding the types of jobs available, qualifications and skills that the city is seeking, and the available current opportunities will also be listed. The types of positions that the city will be seeking over the next year may include but are not limited to:

- Engineering
- Police Officers
- Correction Officers
- Firefighters
- Public Works Maintenance Workers
- Planners
- Administrative positions

The career fair is sponsored by the Evergreen Chapter of the American Society for Public Administration in collaboration with Puget Sound area local, county, state and federal government agencies. This career fair targets job seekers interested in government jobs.

So whatever your background, experience, education, skills and interests, you are bound to find a rewarding career opportunity with us to suit you.

For more information about parking, directions, bus routes and other pertinent information regarding the event, visit <http://www.evergreenaspa.org/>. For updated
