

PSE's **free** lamp & bulb exchange

See energy savings with a new light!

Puget Sound Energy to exchange your incandescent portable lamps and bulbs with ENERGY STAR® lighting **for FREE.**

Saving energy has never been more important, that's why PSE is helping customers upgrade to efficient lighting. ENERGY STAR lighting uses up to 75% less energy than incandescent bulbs while providing the same quality light needed for comfort and safety.

How does PSE's free lamp and bulb exchange work?

Simply bring to the event up to two of your incandescent lamps and up to four incandescent light bulbs and PSE will exchange them for ENERGY STAR lighting **for free!**

Important: You must be a PSE residential electric customer to qualify, so bring your I.D. for verification. Please also note: this free exchange is limited to two lamps and four light bulbs per household.

Arrive early! PSE will have a total of 1,000 lamps and 5,000 bulbs to exchange for free.

And more!

- PSE representatives available to answer questions and provide energy-saving tips
- Bring your spent CFL bulbs for recycling (excludes linear CFL tubes)
- PSE discounts up to \$15 on energy-efficient lighting
- Prizes and food

Choose from four attractive styles of ENERGY STAR table, floor and desk lamps.

A 13-watt ENERGY STAR bulb provides the same light as a 60-watt incandescent!

TIP: Bring in your porch light bulb for exchange. The longer a light needs to be left on, the more you can save with CFLs.
