## **Lane Closures Necessary for Paving Work on Coal Creek Parkway**

### **NEWCASTLE –**

Coal Creek Parkway, an arterial street in Newcastle used by commuters, will be repaved from mid-August to early September this year. Repaving of four travel lanes and several intersections will occur for nearly a one-mile segment between Newcastle Way and SE 84<sup>th</sup> Way. Partial, and possibly full, street closures will be necessary during weekdays and/or weekends. Exact dates and times have yet to be determined, but will be provided at a later date. During construction, drivers are encouraged to use alternative routes.
