

## Traffic Improvements & Utility Upgrades on Duvall Avenue

Residential use and freight traffic has increased considerably on the Duvall/Coal Creek Parkway Corridor, which is now a major through route between Renton and Bellevue. This project, along with the recently completed Renton Sunset/Duvall intersection project and improvements to Coal Creek Parkway in Newcastle, will improve safety and ease congestion from Renton to Bellevue.

City staff will keep the community informed of progress, work hard to reduce impacts, and provide regular project updates on the project website.

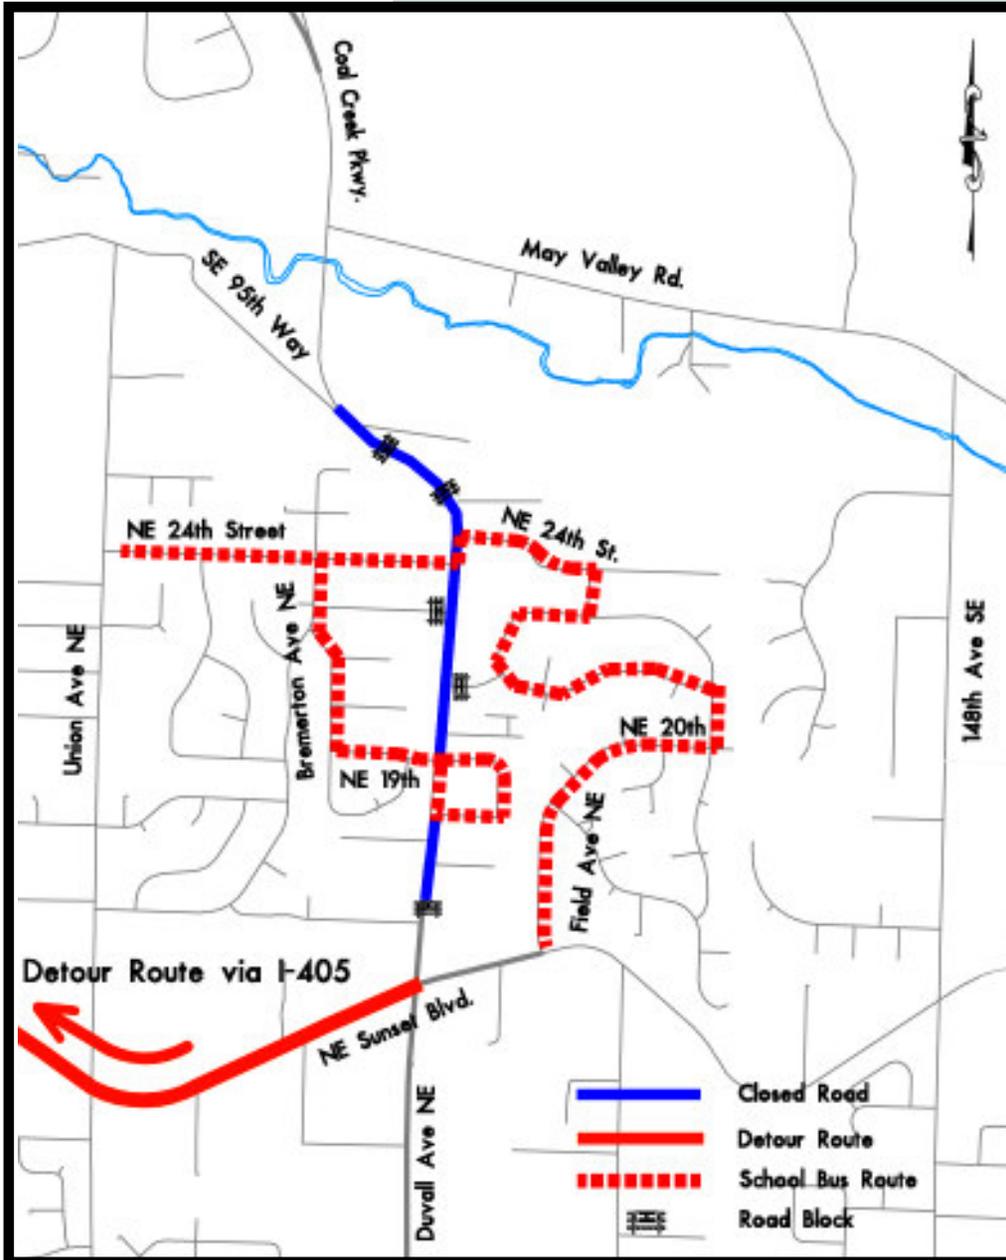

### Road Closure

Renton City Council approved closing Duvall Ave./ Coal Creek Pkwy. to through-traffic between Sunset Blvd. (SR 900) and SE 95th Way. Local access is available from Sunset Blvd. to SE 107th. The closure will begin in June 2008 and will last approximately through July 2009. The closure allows construction to be completed in the least amount of time and prioritizes safety during construction, minimizing impacts to surrounding neighborhoods. Construction will begin in 2008. Exact dates and the latest information will be posted at [duvall.rentonwa.gov](http://duvall.rentonwa.gov).

### Improvements

Here is a summary of the planned improvements:

- Widening the road to five lanes, including a two-way left-turn lane in the center
- Overhead power lines converted to underground lines in anticipation of added safety during storms and emergencies
- New traffic signal at Duvall Ave. and NE 21 St.
- New bicycle lanes
- New gutters
- New sidewalks
- New curbs

## Alternate Routes

The Duvall road closure will be from SE 107th to SE 95th Way. The detour route for traffic will be NE Sunset Boulevard (SR 900) and I-405.

## Contact

Contact project manager James Wilhoit with questions and comments.

**Phone:** 425-430-7319 **Fax:** 425-430-7376
