

Mosquito Abatement Program Exhibit B: Larvicide Treatment Sites

The City of Renton may use mosquito larvicides made of a natural bacterium (*Bacillus sphaericus*) to help control mosquitoes in accordance with the Washington State Department of Ecology's Aquatic Mosquito Control General Permit. Treatments may occur between June 22, 2023 and September 30, 2023. Larvicide treatment will generally occur in stormwater facilities owned or maintained by the City. For more information about the City's commitment to help reduce the threat of West Nile virus and control mosquitoes, contact Kristina Lowthian, City of Renton Surface Water Utility Engineer, at 425-430-7249 or by email at klowthian@rentonwa.gov. For additional information about Ecology's Aquatic Mosquito Control General Permit, please contact the City of Renton or Shawn Ultican, Water Quality Program, Washington State Department of Ecology, at 360-870-3492 or by email at shawn.ultican@ecy.wa.gov.
