RE: Kennydale Lakeline Sewer System Improvement Project: Property-Specific Grinder Pump Plan and Owner Meeting

This letter is to notify you that the City of Renton's design team is nearing completion on your property's sewer design plan and would like to arrange a meeting with you to review it. This meeting will allow the City to present our proposed design for your particular property and provide you with an opportunity to review and comment on your respective site plan prior to its finalization.

Your property's sewer plan will be sent to you prior to the meeting to give you time to formulate any questions or concerns that you may have with the proposed plan.

We would like to schedule an in-person meeting with you at your property between November 1 and November 12. To learn about the sewer systems and **sign-up** for an in-person property owner meeting, please visit kennydalelakeline.participate.online. **Please sign-up for a property owner meeting by October 24. If you miss the sign-up window, you may receive a phone call or email requesting a meeting to discuss the project.**

You can also email us at kennydalelakeline@enviroissues.com to request a meeting. We will respond to your meeting request as soon as possible and will stay in touch with you to confirm the meeting date and time. **If you prefer an online meeting instead, that can be arranged as well.**

If you have questions, would like to request an interpreter for the meeting, or need additional information before scheduling a property owner meeting, please contact me at jhobson@rentonwa.gov.

Sincerely,

John Hobson
