**Statement from Renton Mayor Denis Law**

**Re: Boeing 737 MAX**

*City of Renton Mayor Denis Law has issued the following statement in response to The Boeing Company's official statement on 737 MAX production.*

“The Boeing Company has announced today that they will temporarily suspend production of its 737 MAX jets starting in January. We are hopeful this suspension of production will be for a limited time to minimize any negative impact to local businesses. We are pleased that affected Boeing employees will either continue to work on 737-related projects or will be temporarily assigned to other projects in Puget Sound. Hopefully this decision will ease the impact on local employees.”
