City of Renton invites residents to update Clean Economy Strategy

Series of meetings and online survey will develop the plan

RENTON, WA – The City of Renton is providing two opportunities for community stakeholders to participate in and provide feedback on the city’s update to its Clean Economy Strategy. The updated plan, CES 2.0, will help guide the city towards a resilient, low-carbon future.

The city will host a [CES 2.0 Zoom open house on May 25 from 6 to 7:30 p.m.](#) There will be an optional question-and-answer session following the open house.

An online community survey is also available. The survey is available in [English](#), [Spanish](#), [Vietnamese](#), [Tagalog](#), and [Chinese](#). It will close at 11:59 p.m. on June 22.

The city will also hold focus group meetings and 1-on-1 interviews in the coming months. There will be a public hearing during a city council meeting before adopting the plan.

The original Clean Economy Strategy was adopted in 2011. CES 2.0 will build on that foundation and use input from the Renton community and all city departments to provide a roadmap to reduce greenhouse gas emissions, enhance environmental sustainability, and prepare for a changing climate. It will be tailored to Renton’s needs, reflect the latest scientific evidence, incorporate recommendations from dozens of peer cities, and reflect community input. The updated plan is expected to be adopted in spring 2023.

Background information on CES 2.0, including a complete project timeline and additional opportunities for community member involvement, can be found on the [project’s website](#).
