

Since the Boeing Dash 80 ushered in the dawn of the jet age in 1954, the world's best selling commercial aircraft have been built in Renton.

42% of the jetliners in the air around the world today took their maiden flights from Renton Municipal Airport.

With more than 6,300 delivered, a Renton-built Boeing 737 takes off or lands somewhere in the world every 2.2 seconds.

**Together our reach is global.
Our partnership, legendary.**

Congratulations to The Boeing Company on your new agreement with the City of Renton, paving the way for the greatest airplanes in the world to be produced here until 2050 and beyond.

Proudly brought to you by the Renton School District, Renton Technical College, Renton Chamber of Commerce, City of Renton, Renton Visitors Connection, and Valley Medical Center. For further information, visit <http://rentonwa.gov>.
