

Rainier Avenue Improvements

This project includes the following improvements on Rainier Avenue South between S/SW Grady Way and S 2nd Street:

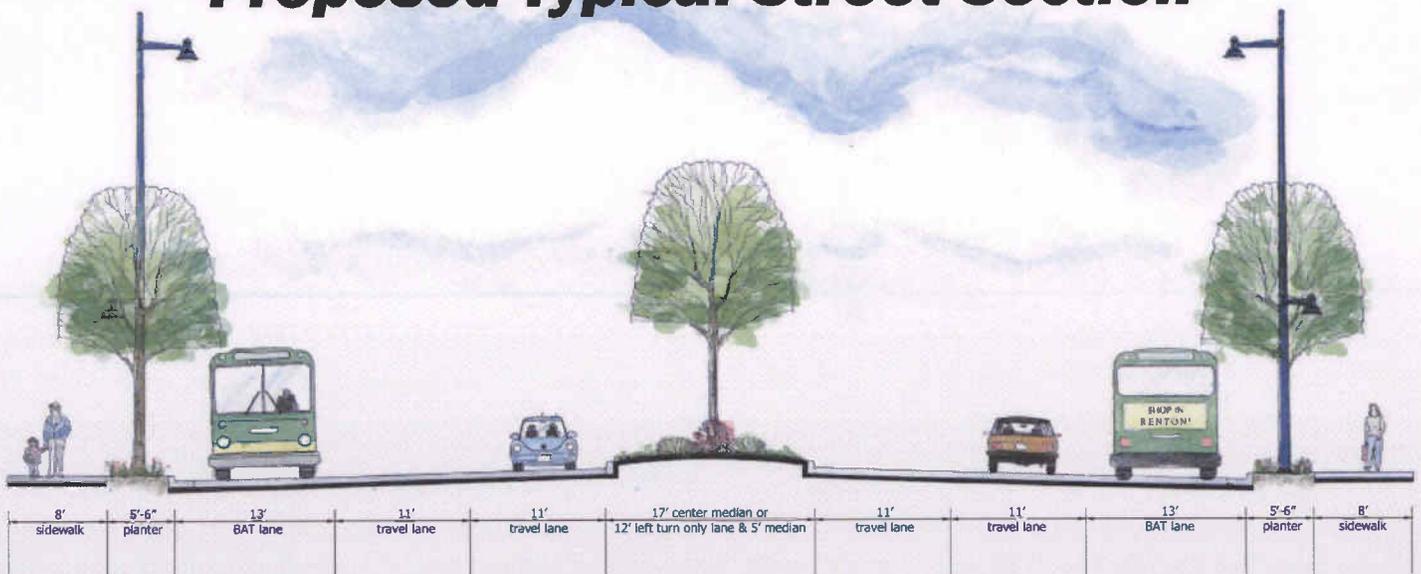

- **Transit Mobility** - new northbound and southbound business access transit (BAT) lanes.
- **Traffic Safety** - eliminating left-hand turns, except at intersections, and allowing signalized U-turns at intersections.
- **Pedestrian Safety** - new eight-foot wide sidewalks, setback from the street, landscaping and street lighting.

The design of this project is scheduled to be completed in late 2009. Construction is currently scheduled to begin in 2010. The construction duration is anticipated to be 18 to 24 months.

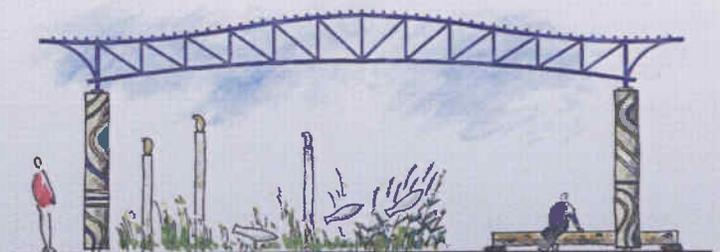

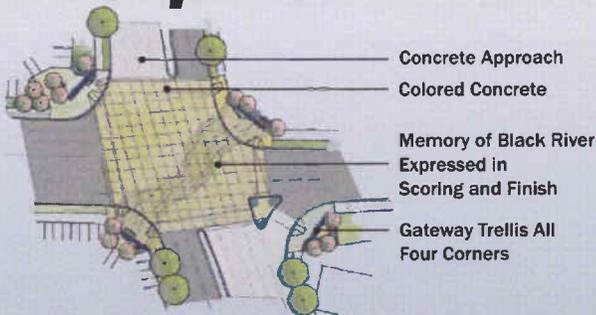

The City's funding partners for this project include:

Proposed Typical Street Section
